

Hello, residents of Burland Ranchettes! I am excited for the upcoming year and what your BHOA will be doing in the area. I moved to the Burland Ranchettes from Albuquerque, NM in June 2020 and absolutely love it! I wanted to live in the mountains and still be close enough to Denver for my job. I have been on the board since 2021 and enjoy being involved in all the projects that the BHOA has taken on. This past year has been super busy for me with taking on the Secretarial duties, managing Firewise and related projects, updating the website, and doing my full-time job. I feel that the BHOA truly has the homeowners' interests in mind and by being a part of the BHOA, I get a front row seat to all the future projects and to work with residents and what they are looking to add to the community. My vision for Burland Ranchettes, as it has been for the past three years, is to get more residents involved with the Burland HOA, whether it be park upgrades, Firewise related activities, or proposed projects from the residents. All of the programs and projects I have been associated with have allowed me to spend quality time with my neighbors and really get to know what it is like to live here. If re-elected, I will continue to help with upgrades to our Weakland-Fawks Park, improving our website, and hopefully start new projects that benefit the residents of Burland.

Bill Beggs, Secretary
Burland Homeowners' Association
