

Ultra-High-Speed Internet is here in Burland Now!

Come join the Highline crew and members of the association board as we celebrate the first live customer connection to the new Highline Fiber Internet service.

We will be celebrating this initial installation at Don Actor's house located at:

388 Pinon Drive

Bailey, CO 80421

Thursday, September 22, 2022

Beginning at 5:00 PM

Don will be using the full 1 Gigabit service from Highline and will be the first active customer.

The team will be there with information and demonstrations of the new Fiber Internet.

Don and the Highline team will be working together to test the system over the following 2 weeks to make sure everything is working in his real environment.

Highline will be adding additional homes to the network once this initial installation and testing process are completed.

**Highline plans to complete construction by the end of 2022, weather permitting.
Now is a good time to get your installation order into Highline!**
